IN THE DRAWINGS:

The Examiner objected to the drawings because the Figures were not properly labeled. Applicants are submitting copies of the three sheets of drawings filed with the original application, marked in red to show the changes applicants propose to make to overcome these objections. It is respectfully requested, however, that the requirement to formally make the changes be held in abeyance until such time that this application has been allowed. The same is true for the other required corrections indicated on PTO Form 948.
